*for immediate release*

## **Aluminium and Mild Steel Louvers**

Optimum Balance Products have just released a range of aluminium and mild steel louvers in a variety of sizes.

Now you can add perfectly formed louvers to any panel. Use aluminium louvers for fibreglass or alloy panels and the mild steel version can be welded into steel panels.

OBP louvers can be used to duct heat away from engine compartments, to vent sump and transmission guards or just for great looks.

Prices start at just £10 plus VAT each.

**For further details contact Optimum Balance Products Ltd. on +44 (0) 1487 812 301 or visit their website: [www.obp.uk.net](http://www.obp.uk.net)**
